

To all of my valued clients

2018 has been a busy year of changes and challenges for Vosper Law but these have been positive, and I have a fantastic, friendly and very experienced team.

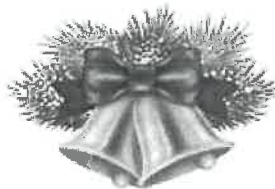

Ivan McIntosh our new consultant solicitor came on board in October after our staff solicitor, Nick Brooks, left in May to pursue his equestrian career. Ivan is settling in well. He has particular expertise in advising developers and commercial property clients, so he will welcome enquiries from those fields. He and my senior associate, Vernon Woodhams are also developing more expertise in employment law.

As always, we continue to provide general legal services including residential, rural and commercial conveyancing, leases, relationship property division, wills, trusts and estates.

I have saved my biggest and saddest news for last. My office manager/legal executive/go to person for everything, Liane Goodwin has resigned to take up a very senior role at Fonterra. This will give her an amazing career opportunity that I could not possibly match. I am extremely proud of Liane for securing this position from many applicants and also proud that her time at Vosper Law has set her up to have the strengths and expertise to get such a position. On the other hand, I am hugely sad that Liane is leaving my team as she has been my right-hand person for many years. During the over 15 years she has worked for me she has faced many challenges and stood up to every one that was thrown at her. She is irreplaceable and will be greatly missed by the whole Vosper Law team and the many colleagues that she deals with.

On that note I wish everyone a very happy Christmas and all the best for 2019. Thank you to my team – the BEST by far!!

Amanda
